Smart Controls

APP Intelligent Control

- Download the "Tuya" application to connect and enjoy intelligent control.
- The LED Downlight is intelligently grouped and controlled through the APP.
- Create a personal timetable and the downlight will switch automatically.
- Share to other devices in the APP and share control LED lights between different devices.

Voice Control

- Compatible with Alexa and Google Assistant. Use simple conversations to control your lights and release your hands.

Music & Mic Sync

- The LED Downlight can change the color with the beat of the music or the sound of the game.
- This function is only applicable to APP, no built-in microphone or speaker.
