NOTES: _____ FIXTURE SCHEDULE: _____

Rechargeable UV Disinfection Handlamp - Coronavirus - UVC, Fluorescent -180° Beam Angle
Item #: WL-IND-RL-UVC-13W

WL-IND-RL-UVC-13W UV Sanitation Light w/ Inline Battery Pack

- Lamp Technology: UV-C Fluorescent
- Dimensions: L-14.5" x Dia-3.5"
- Voltage: 120V
- Battery Pack: 20 aH Rechargeable Lithium Battery
- Battery Runtime: 90 Minutes
- Battery Recharge Time: 24 Hours
- Total Watts: 9W
- Total UV Output: 2.4W
- Expected Lifespan: 8,000+ Hours
- UV Wavelength: UV-C, 200nm - 280nm (253.7 nm)
- Lamp Base: G23 (2-pin)
- Beam Angle: 180°
- Light Configuration: Flood
- Materials: Aluminum
- Lens Material: Glass w/ Light Guard
- Mounting: Swivel Hook or Handheld
- Wiring: 50' 16/3 SOOW Cord w/ Cord Cap

*****PLEASE NOTE: UV-C light can cause temporary or permanent loss of vision, and temporary acute redness or ulceration (mild to severe sunburn) to exposed skin. To prevent exposure, do not operate the device in any application that allows UV-C light to be visible during operation. NEVER LOOK DIRECTLY AT THE BULB OR DISINFECTING TARGET ZONE. DO NOT touch bulb with bare hands. The oils in your skin will damage the lamp. Fingerprints will result in reduced performance and significantly reduce the lifespan of the lamp unless they are removed with alcohol. Please read instruction manual for UV safety requirements before operating.*****

Battery Power: This handheld UV light is powered via an inline 20 aH lithium battery pack. The battery pack is rechargeable and can operate the handlamp for 90 minutes on a full charge. The fully depleted battery pack has a recharge time of 24 hours and is charged via a 5-15 cord cap and 120 V voltage.

Wiring/Plug: This unit is equipped with 3 feet of 16/3 chemical and abrasion resistant SOOW cord between the lamp and battery pack and 25' of 16/3 SOOW cord between the battery pack and cord cap. It is fitted with a standard 5-15 15 amp straight blade plug for 110V wall outlets with ground.

Mount: This handheld UV light contains a swivel hook at the top of the light head for hands-free operation. The mounting component enables operators to secure the unit on poles, pipes, chains, small openings, hooks and more. A non-slip handle caters to up close sanitation of surfaces, work stations, heavy machinery and other types of equipment.

Note on Environment: Sunlight and visible light fixtures do not impact the effectiveness of the disinfecting on this UVC sanitation product. Metal halide, high pressure sodium, fluorescent, and LED light fixtures can be left on. The UV radiation emitted from this product is not disrupted by any type of lighting in the environment. Put simply, NO it DOES NOT need to be dark in the area you plan to disinfect. The UV radiation is harmful to the eyes and skin, and that is why you should not be in the area while it is in operation. Please see user manual for additional safety information.

Suggested Applications: Sanitation, disinfection, coronavirus, retail spaces, lobbies, commercial locations, industrial parks, schools, public transportation hubs, airports, office buildings, medical centers and more.
