

Working Together to Illuminate Your Space to Perfection

Who We Are

Warehouse-Lighting.com specializes in providing customized lighting solutions for commercial, industrial and business applications. For over 16 years, we've worked to provide our customers with planning, configuration suggestions and guidance throughout their project.

We've earned a loyal following of satisfied customers who demand the ideal lighting solution for just the right setting. Our skills and knowledge in LED lighting technology, manufacturing and distribution, combined with our relationships with major brands, means you get high-quality solutions at the most affordable prices. Based in Wisconsin, Warehouse-Lighting.com engineers WareLight[™], our proprietary lighting brand. We're able to produce and stock significant quantities to ensure we meet the demand of our customers.

Please let your personal account manager know if you have any questions.

What We Can Do for You

Warehouse-Lighting.com is with you throughout your project with the products and support you need — from planning to product education to delivery to your doorstep. Our goal is to get you the lighting solution that you want, on time and on budget.

Great Product Selection

Warehouse-Lighting.com offers high-quality products that incorporate the latest technology. We continue to grow our inventory of products. Many of the 15,000+ items we carry are in stock and ready to ship. And regular replenishment of key products ensures you'll get your lighting products as quickly as possible.

Your Partner in Lighting

We'll work with you to understand the area being illuminated, the type and style of lighting required and any budget constraints. Our experts are passionate about what they do – they're eager to provide information, education and guidance throughout your project. We remain committed to being your one-stop source for all lighting products – from the initial purchase to maintaining and upgrading your lighting scheme.

Get the Benefits of Our Experience

At Warehouse-Lighting.com, we're happy to share our knowledge with anyone who wants to become more illuminated.

On our website, you'll find our Lighting Resources & Education section, featuring dozens of different topics that are helpful to anyone who's trying to create a lighting plan for their space. You'll find articles broken out by these topics:

- Comparisons
- Education
- History/Trends

- How Things Work
- How-To Guides
- Infographics

- Lighting Uses
- Product Reviews
- Q&A

Top 10 Advantages

of Partnering with Warehouse-Lighting.com

Warehouse-Lighting.com specializes in providing you with the customized lighting you need for commercial, industrial and business applications. We work with you one-on-one to get you the best lighting solution, and our 16+ years of experience guides us in suggesting the correct configurations best suited for your use. When you partner with us on any lighting project, you'll enjoy 10 major advantages.

1 Free Lighting Layouts

Our expert lighting consultants will work with you to develop a lighting plan specially tailored to meet your needs.

3 16+ Years of Experience

We've been selling lighting to contractors and businesses from coast to coast since 2005.

5 High-Quality Lighting Products

Our products are engineered to incorporate the latest technology to provide you with optimal lighting solutions.

7 Regular Replenishment of Key Products

Key products are replenished often to minimize the time it takes for them to arrive at your doorstep.

9 Best-Case Pricing and Delivery

The value is all yours, thanks to strong partnerships with suppliers and diverse sourcing alternatives – both "Buy American" and imported.

2 Growing Inventory of Products

We currently have over 15,000 items and counting. Many are in stock and ready to ship – like WareLight[™], our proprietary brand.

4 Personal-Touch Service

We're available by phone or live chat: Weekdays, 7 am to 5 pm (CT).

6 Highly Competitive Prices

All categories of lighting are competitively priced to give you the best value every time. (Check out our Preferred Partner Program for additional perks.)

8 Price Matching

For most items, we'll match the price on identical in-stock lighting products. *Ask us for details*.

10 Online Resources

We take it upon ourselves to educate and illuminate. Visit our Lighting Resources & Education Center to learn more.

Beyond Lighting Fixtures

Warehouse-Lighting.com is with you throughout your project with the products and support you need — from planning to installation. Our goal is getting you the lighting solution that you want, on time and on budget.

LED Lighting Ballast & Drivers

The ballast/driver regulates the current to the lamps and ensures sufficient voltage is being provided. Without a ballast to limit its current, a lamp connected directly to a high-voltage power source would ultimately overheat and burn out. Warehouse-Lighting.com has high-quality, energy-efficient ballasts for your project that are affordable, easy to implement and long-lasting. Our best-sellers in this category are the LED emergency backup drivers.

Electrical Supplies & Lighting Accessories

Within our electrical supply store, you will find everything you need to install or upgrade your lighting solutions. Within each electrical supply category, we offer a diverse range of options in terms of price, capabilities, specifications and brands to ensure you have the best selection of electrical supplies to get the job done right. Best-sellers in this category include:

- Fixture Hangers
- Surge Suppressors
- Electrical Cords

Reflectors

Sensors & Light Controls

Programming the lighting in your home or business is essential for saving money on energy costs. Our selection of sensors gives you plenty of options for creating custom lighting solutions in your space. Our highquality lighting controls allow you to manage the room's lighting scheme, providing a cost-effective and environmentally friendly solution that you can easily incorporate in your own home or business. The best-seller in this category is our High Bay 360 Line Voltage Occupancy Sensor.

P.S. Select lighting fixtures provide the option of having Warehouse-Lighting.com install the sensor for you. Be sure to check out this feature when you purchase your fixtures.

Contact Information

We're committed to providing outstanding customer service. Use our personal-touch service by phone or live chat, weekdays, 7 am to 5 pm (CT). If you'd prefer to leave us a message, just fill out the form on our Contact us page, and we'll get back to you with an answer as soon as possible.
