

ADHESIVES

General Information/Technical Data Sheet

AlbaChem® Premium Web Adhesive

AlbaChem Premium Web Adhesive is used to provide a tack to screen printing press pallets when printing on fleece or other textured fabrics. The unique web pattern dries quickly providing a long lasting tack that will not transfer. Premium Web Adhesive has less over-spray than mist style aerosol adhesives.

Advantages:

- Great on Fleece
- Will Not Transfer
- Less Frequent Re-application
- Does not contain any chlorinated solvents.
- VOC compliant for use in all 50 States

Packaging:

Item# 1783 Aerosol Can Net Wt. 13 oz (368.5 grams)
Case Pack: 12

Safety:

- Does not contain chlorinated solvents
- Requires less frequent applications, reducing amount of adhesive used in the workplace

Directions for use:

Shake well before using. Use on clean dry pallets for best results. Hold can 6 to 8 inches from surface to be sprayed. Use a sweeping motion when spraying. Apply a light coating to entire pallet. On cold pallets allow a few seconds for product to dry before printing. Re-apply as needed. To avoid clogging, after using, turn can upside down and spray against a piece of paper until a clean stream of air flows.

Environmental Benefits:

- Contains under 55% (by weight) of V.O.C.'s and complies with CARB VOC's standards.
- Does not contain vinyl acetate or other toxic adhesives
- Product is stable and non-reactive under normal conditions of use, storage and transport.
- Meets the exception requirements for shipping as a limited quantity.

Technical Data:

Appearance: Cloudy/White
 Odor: Solvent
 Shelf Life: > 1 Year
 Flammability: Level 3 Aerosol

VOC's: <55% (by weight)
 Specific Gravity: 0.6543 (estimated)

HMIS HAZARD RATING:

Health: 2 (Moderate)
 Flammability: 3 (Serious)
 Reactivity: 0 (Insignificant)
 Personal Protection: B (Gloves & Eye Protection)

Carcenogens: None
 UN Number: 1950
 Packaging Exemption: Limited Quantity
