

Evanesce™ Silk™

Nano-Enhanced Universal Restorative

Silky Smooth Handling. Beautiful Results.

With silky smooth handling, Evanesce™ Silk™ blends naturally into surrounding tooth structure and offers beautiful esthetics, high strength, and a fast, high shine for all direct composite restorations. Ideal as a single shade restorative, Evanesce Silk can also be used in conjunction with Evanesce enamel, dentin or non-VITA Enamel FX shades in a layering technique for the ultimate in esthetic results.

- Strong nano-hybrid composite with silky smooth handling.
- Excellent shade match, polishes to a fast, high shine.
- Ideal for anterior or posterior restorations.
- Available in the most popular 5 VITA shades and 1 bleaching shade in a universal, 85% opacity.
