

SafeGauze[®] HemoStat[™]

Topical Hemostatic Dressing

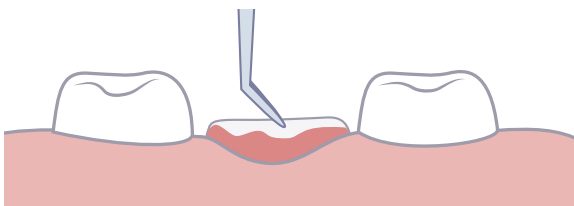

Quickly transforms into a clear gel to control bleeding—No suturing required.

HemoStat is a 100% natural, dissolvable hemostatic dressing designed to control bleeding after extractions, periodontal surgery and other procedures that require bleeding control.

Absorbs fluid from oral mucosa and quickly transforms into a clear viscous gel for easy placement.

Creates a gelatinous “plug” that adheres to the wound, creating a tight seal that closes off blood vessels to control bleeding and start the healing process.

Gelatinous plug gradually dissolves in saline.

See for yourself how well SafeGauze HemoStat works. Order your samples today at [Medicom.com](https://www.Medicom.com) or contact your sales representative.

Three-time winner of the Dental Advisor Award since 2020

FEATURES	BENEFITS
Transforms into a gel within seconds	Fast and easy placement
Absorbs 400% its weight in fluid	Fills wound and forms a strong clot for effective bleeding control
Adheres to the wound	Stays securely in place—no suturing required
Made from 100% hypo-allergenic cellulose with no chemicals or animal-based products	No chemicals or animal-based products
Convenient packaging	Saves valuable chair time

What dentists are saying about SafeGauze HemoStat:

“When placed in the wound void, the topical dressing forms a clear gel that expands rapidly as it absorbs blood, creating a plug that stops the bleeding. The dressing then stays in place and does not need to be sutured over.”

“With this product, there’s really no learning curve. You can begin using it right away.”

“Effective, economical and a time saver.”

“Another benefit of SafeGauze HemoStat is that it doesn’t stick to instruments while packing in the socket, which makes it a very quick and easy process. But most importantly, the product controls the bleeding, maintains the clot, and promotes wound healing before eventually dissolving to saline and glucose.”

4900-STATC 0.75" x 0.75" - 4 Ply, 20 units per box

Single Use

Not made with natural rubber latex.

Made in China
