

Category: Window Hardware
The 'Annabelle' Window Fastener

Specification:
Our window hardware is crafted from premium-grade solid brass, chosen for its strength, corrosion resistance, and timeless appeal. Each piece is manufactured and hand-finished in our workshop here in the UK to ensure exceptional quality and consistency across every piece. Designed for durability and ease of use, our hardware blends traditional craftsmanship with modern engineering to meet the demands of both heritage and contemporary window installations.

Available in a range of finishes to suit any interior or exterior scheme, our products are suitable for timber and metal-framed windows. Custom finishes and specifications are available upon request for bespoke projects.

For tailored bespoke solutions, please contact our team at info@oliverknights.com

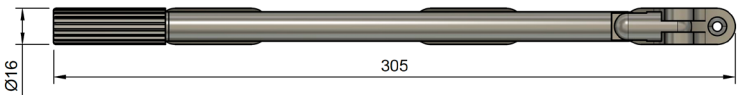

Technical Data:
Our window hardware is manufactured and hand-finished to order, available in a broad selection of finishes to complement any interior scheme. Each piece is supplied with matching fixings as standard and can be paired with a range of different products for a cohesive window set.

Window fasteners and fittings can be specified in various styles to suit the functional and aesthetic requirements.

For dimensions, please refer to the accompanying technical drawing diagram.

Oliver Knights products are proudly made in Birmingham, England and are mechanically guaranteed for life, ensuring exceptional durability and performance.
