

NORMAL SKINCARE GUIDE

NATURAL & ORGANIC
SKINCARE RECOMMENDATIONS FOR YOU

ABOUT YOUR SKIN TYPE

Normal skin looks soft, plump and has good circulation and brightness. You won't spot dehydration lines or larger pores like you would with drier or oilier skin types

Normal skin types should still take care of their skin because it can age prematurely from sun exposure, harsh climate, lack of water intake and poor diet. It's important to make sure your skin is cleansed and is protected from oxidisation and free radical damage

We've chosen products that are formulated for all skin types that will keep your skin clean, clear and soft that are loved by our customers with a normal skin type

TO CLEANSE

OILIXIA GUMMY CLEANSER

- Its unique texture gives you a really deep but gentle daily cleanse. Starting as a sticky paste and melting to a creamy emulsion

intensely moisturising

Nida on May 17, 2020

After using an exfoliator that I found too drying, THIS moisturiser brought my skin back to being supple and I loved it! It allowed me to massage my face long enough before my skin absorbed it. And also it wasn't a thick consistency.

We're so glad you love this moisturiser and thank you for your lovely review x

Perfect....soft and moisturising

Tracy Lamb on May 15, 2020

I love the feel of this moisturiser, it's soft and not at all greasy. It went on my skin so well, soaked in quickly and instantly left my dry skin feeling soft and moisturised. It also smells lush, a nice delicate smell.
