

OILY SKINCARE GUIDE

NATURAL & ORGANIC
SKINCARE RECOMMENDATIONS FOR YOU

ABOUT YOUR SKIN TYPE

Oily skin types over-produce sebum resulting in a shiny complexion with enlarged pores. Oily skin types can also be dehydrated when using products that strip the skin so it's important to keep the skin moisturised

Key areas to focus on for an oily skin type are; deep but gentle cleansing, keeping the skin hydrated without clogging pores and using balancing ingredients to control sebum production

We've chosen products that are formulated for oilier skin types as well as using balancing, toning and hydrating ingredients that are loved by our customers with an oily skin type

TO CLEANSE

AD SKIN SYNERGY CLEANSING BALM

- Gently but deeply cleanses the skin
- Made with jojoba oil which mimics sebum to help balance and frankincense to minimise pore size and manage breakouts

Cleansing and hydrating!

Cath on May 20, 2020

I love this cleansing balm - I think it's made such a difference to my skin. I'd been having regular breakouts, and the high street cleansers I was using were only aggravating my skin more.

This balm was a revelation! it's strong enough to remove mascara and foundation, but so hydrating and smells amazing too. Plus, removing it with a hot linen cloth is both exfoliating and soothing...like I said, love it :-)

TO EXFOLIATE

TRUE SKINCARE SUPERFOOD EXFOLIATOR

- A very gentle powder exfoliator that removes dead skin cells to boost radiance
- You can tailor it to your skins' needs by mixing with water or oil
- Rich in both nourishing and anti bacterial ingredients to scrub your skin without drying it out

Feels great on my skin

Oyin on May 08, 2020

This product has been great for keeping my skin smooth and moisturized and although I have oily skin it doesn't make it any oilier

We're so glad the serum worked for your skin! Thanks for your review x
