BRACELET SIZE GUIDE

Finding the perfect fit

Finding your size has never been easier with our ring size guide. Read the steps below to find your perfect fit.

STEP 1

Print this out to fit an A4 page, making sure it's scaled to 100%. To check, measure the line below - it should be 30mm exactly.

Or, add a bank card to the box below - it should fit perfectly.

STEP 2

Cut out the bracelet sizer on the right, making a slit where it says 'cut here'.

STEP 3

Wrap the sizer around your wrist, making sure the numbers are facing outward, and put the tip through the gap.

STEP 4

Adjust so you have a comfortable fit and read the number (spoiler alert: this is your bracelet size!).

STEP 5

Use the chart on the right to find if you are a small, medium or large. **(chart tbc?)**
