

Model: MP0609C / MP0609EA

3.1Amp Dual USB Charger SAE to USB Adapter

Specifications:

- Input: 12-24V DC;
- Output: 5V DC, 3.1Amp(max).
- WATERPROOF - Fully glued PCBA. No worry of water damage.
- Multiple Mounting Options.
- SAE quick release connector for your existing SAE outlet.
- Safety protections against overload, overcurrent or reverse polarity.

Operation Instruction:

1- **Use a fuse (<7.5Amp) protected SAE adapter cable** to connect the USB charger with the battery. Make sure the correct polarity connection with the battery. See the above picture of the USB Charger SAE connector polarity. Male pin is the "+" Positive post, while the female pin is the "-" Negative post.

(NOTE: MP0609EA includes the fused cable. MP0609C doesn't include the fused cable.)

⚠CAUTION: DO NOT CONNECT THE USB CHARGER WITH THE BATTERY DIRECTLY WITHOUT ANY FUSE PROTECTION. IN CASE OF SHORT CIRCUIT, THE FUSE MUST BE USED BETWEEN THE USB CHARGER AND THE BATTERY FOR SAFETY.

- 2- Route the wire away from moving parts, hot engine, exhaust components, or steering components for safety. Secure all wiring and fuse by zip ties, taps, etc.
- 3- Connect the SAE connectors to turn on the USB charger when all parts are installed properly. Plug in the cell phones or GPS for charging on the ride.
- 4- Disconnect the SAE connectors and keep the cap on after each use. Do not keep the USB charger connected with battery for long time, which may cause battery drain and affect the USB charger life.
