

Nexx Gate Smart Phone App

For operation of all USAutomatic
gate operators from Wifi
and Bluetooth

Part #030223

USAutomatic is proud to announce the sale of our Nexx Gate smart phone app.

This is a companion device that works with all USAutomatic gate openers equipped with the latest UL 325 obstruction sensing devices. The Nexx Gate App allows up to eleven users to securely open, close, and monitor their gate from anywhere in the world.

For solar installations we recommend a 20 watt solar panel. (USAutomatic part # 520030)

Features Include:

- Shows gate open/close status
- No subscription fees
- Easy to share by authorizing up to 10 secondary users.
- History log shows times of gate operations, and who did the operation.
- Scheduler allows programming of both gate open and gate close.
- Notification sent if gate stays open longer than a programmed time period
- Works with Alexa, Google Assistant, Smart Things, and Siri.
