Carefree Digital Keyless Entry Access

CAREFREE SECURITY has been manufacturing fully sealed outdoor ALL WEATHER digital keypads and access control products for over 40 years. Our customers are assured of a trouble-free product that is easy to install, user friendly and easy to operate.

CAREFREE SECURITY keypads and products are designed as a stand-alone programmable digital keypad entry with self-contained electronics. Access control is designed for heavy-duty commercial and industrial use. Ideal for adverse environment conditions. Field programmable and can be changed in seconds. A user can pass through an entry point secured by the Carefree keypad or access control by entering a correct code. If an incorrect code is entered the keypad will deny access. The built in relay can switch power to an electric door lock, gate, overhead door operator and much more. Our products will compliment any opening and aim to provide total user satisfaction.
