Attention: Fundraising Coordinator,

Raising funds does not have to be a stressful experience. Selling products that people will love is what makes our fundraisers such a great success. Bath and body products like Epsom salts, bath bombs, scrubs and lotions are great options when you want to provide value to the people who support your organization.

At Happy Hippo Bath Co, our team of hard working moms has focused on crafting bath and body products that are handmade and cruelty free for over a decade. We are proud to make our products from scratch, using at least 98% natural ingredients that are ethically sourced.

Our goal is to make sure we have products that the whole family will love and enjoy! We have something for kids, grandparents, and everyone in between.

In 2014 we launched our first fundraising program and we've been doing fundraisers twice a year ever since, we helping schools, sports teams, dance organizations, and many other non-profit groups exceed their fundraising goals.
