Welcome to Eastern Pearl's 2016 – 2017 catalogue.

Over the last 24 years Eastern Pearl has established a reputation for supplying quality pearls at affordable prices. We pride ourselves on stocking one of the largest ranges of pearls, pearl jewellery and findings. We also provide related services such as restringing and drilling.

Our success would not have been possible without our loyal customers. To all our existing customers, we thank you for your continued support, and to any new-comers, we look forward to working with you in the future.

Address: Suite 210/155 King Street, Sydney NSW, 2000

How to use this catalogue

We have designed this catalogue with you, our customer in mind and hope that you will make it your own.

Please tear off this page and place your business card in the space provided on the opposite page.

All prices quoted in the catalogue are the recommended retail price. To calculate the cost for you, simply divide the RRP by 3. For example:

- If the RRP is 300:
- Cost to you (wholesale price):
- $300 \div 3 = 100$ (plus GST)

We hope that this will make it easier for you during the sales process.

South Sea Strands

Our South Sea strands are made from quality South Sea pearls sourced from the pristine coastal waters of North Western Australia. These beautiful, lustrous pearls are then hand selected and strung to the standard length of 16 inches. Our strands are available in a variety of sizes ranging from 8 – 15mm; both graduated and ungraduated. They can also be found in the full range of South Sea pearl colours; white, cream, and gold, shapes as well as in different grades ranging from AAA to A.

Tahitian Strands

Our Tahitian strands are made from hand selected pearls which are then made to a standard length of 16 inches to ensure the utmost quality in every strand. The strands are available in a variety of sizes from 8 – 15mm; both graduated and ungraduated as well as in the full range of Tahitian pearl colours and shapes. In addition, all strands come in grades ranging from AAA to A to suit your price needs.

Akoya Strands

Our Akoya strands are made to a length of 16 inches and are available in a variety of sizes from 4 – 10mm; both graduated and ungraduated, in natural white or dyed black, as well as in round and baroque shapes. We offer our Akoya strands in grades from AAA to B.

Freshwater Strands

Our Freshwater strands are made to a length of 16 inches and are available in a variety of sizes from 2 – 15mm; in a large range of both natural and dyed fashion colours, as well as in many shapes including rice, button, coin, tip-drill and the usual round, semi-round and baroque shapes. We offer our Freshwater strands in grades from AAA-AB.

Gold and Silver Findings

Pearl Education

South Sea Pearls

South Sea Pearls are cultivated from oysters found around North Western Australia and South East Asia. The resulting pearls are thick in nacre and are the largest of any cultured pearl. These beautiful jewels of the ocean come in silver or gold hues but are also available in variations of cream, pink and pure white. They are typically large pearls, ranging in sizes from 8mm to 20mm. All our Australian South Sea Pearls are genuine and have never been treated in any way.

Akoya Pearls

Akoya pearls are imported from the salt waters of Japan and typically exceptional lustre and great shine. They are rare and are usually only found between 2mm to 9mm due to the smaller size of the oyster they are cultivated from. Akoya pearls are typically white or cream in colour with a rose, cream or ivory undertone, however, they can also be treated to take on a black colour.

Keshi Pearls

Occasionally when a mollusc is opened at harvest, a non-nucleated pearl is found. These pearls are not cultured but are a by-product of the culturing process when a previously cultured oyster spontaneously produces a pearl due to an irritant. This surprise of nature is known as the keshi pearl and is virtually all nacre and most often irregular in shape but very lustrous; a truly unique and valuable gem of nature.

Tahitian Pearls

Tahitian Pearls come from the warm pristine waters around Tahiti and several other French Polynesian islands. The pearl is produced by the black-lipped oyster and are the only pearl to achieve a naturally black body colour and are typically very large, ranging in size from 7mm to 20mm. Whilst often named the 'black pearl', Tahitian pearls are actually found in a wide range of colours ranging through grey, silver, blue and purple. Our Tahitian pearls come to you straight from nature in their purest form.

Mabe Pearls

Our South Sea mabe pearls are created on the inside of the mollusc shell rather than inside the tissue. The pearl is made by gluing hemispherical plastic beads to the inside of the shells, which are then cut away. The unique nacre of the mabe oyster allows for brilliant rainbow-like hues as well as superior lustre.

Freshwater Pearls

Freshwater pearls are created through implanting molluscs with solely tissue and no bead. This results in a pearl made entirely of nacreous layers and gives them a beautiful lustre and durable surface that will not crack or peel open to reveal an inner bead. Freshwater pearls come in a diverse range of natural colours ranging from white through to cream, pink, peach, rose, lavender and purple. Freshwater pearls can also be found dyed in a variety of fashion colours. These pearls offer a beautiful lustrous finish at a fraction of the cost of Akoya pearls and smaller South Sea Pearls.

Restringing Services

For over 20 years we have been renowned for our expertise in restringing. We are experienced in working with a wide range of mediums including pearls, diamonds, gemstones and all forms of beads. We also offer a comprehensive range of stringing materials to suit all requirements. Our average turn-around time is between 1-3 days, however, we aim to accommodate urgent requests where possible.

Restringing Instructions

For all restringing jobs we require the following information:

- **Knotted/unknotted:**
 - Knotting can only be performed using silk and cotton threads
 - For strands over the size of 6mm, we recommend that you have your strand knotted
 - If the strand is made from very small gemstones, we recommend that the strand not be knotted
 - For strands made of combinations of gemstones and pearls, knotting may not be possible as the holes may be of different sizes
- **Items to be supplied:**
 - Item code if known. Otherwise, specify yellow gold or white gold and carat, gold plate or silver. For pearls, please specify type, colour, size and shape.
- **Length:**
 - For a single strand or multiple strands of the same length, specify a final finished length including clasp.
 - For multiple strands of different lengths, specify the length of the shortest strand and the vertical distance between each strand at centre-front.
- **Pattern:**
 - Draw the pattern for both new and broken strands.
- **Preferred restringing material:**
 - The strongest and safest material for restringing is a high tensile combination thread made of silk and nylon. We offer this in an extensive range of colours that we will match to your strand unless otherwise specified.
 - For the restringing of gemstones and diamond strands, we recommend using German flexible wire. This is because the small diameter of the hole in these mediums will only allow us to use a very thin thread, and the jagged edges of the stone can easily cut through silk.
 - For heavy stone strands with large holes we recommend using silk and nylon thread with knotting between each stone. However, if the holes are disproportionately small, we recommend using wire or fish-wire.
 - If a strand contains beads with different sized holes (such as in mixed strands of gemstones and pearls), the material used for restringing will be determined by the diameter of the smallest hole.

Restringing Charges

Restringing charges are listed in the table on the opposite page (excluding postage).

Strands made with stone or pearl sizes less than or equal to 3mm are charged at 1.3 times the regular restringing price due to difficulties in stringing.

We advise that you keep a record of the condition of all items sent to us using either photographic evidence or by counting the number of items sent.

Restringing Prices

Inch	Cm	Price
7.5"	19	\$30
16"	40	\$54
18"	45	\$60
20"	50	\$69
22"	55	\$75
24"	60	\$81
26"	66	\$90
28"	71	\$96
30"	76	\$102
32"	80	\$108
34"	86	\$114
36"	91	\$120
38"	97	\$129
40"	101	\$135
42"	106	\$141
44"	111	\$150
46"	116	\$156
48"	120	\$162
64"	160	\$216

Drilling & Gluing Prices

We can half-drill or fully-drill pearls with holes ranging from 0.7 – 3.0mm.

Drilling & Gluing Prices	
Earrings	\$45/pr
Pendants	\$24/pc

Drilling Prices	
Holes under 1.5mm	\$9/pc
Holes 1.5-3mm	\$30/pc
