# **64-72 Chevelle/El Camino Parts Catalog #36**

**Your number one source for all of your  
Chevelle and El Camino parts needs.**

**[www.LS6454.com](http://www.LS6454.com)**

**Check online for new items and the most current pricing. Updated often.**

**We also carry restoration parts for  
67-69 Camaro, 70-81 Camaro, 62-79 Chevy II/Nova**

**Chevelle / El Camino 2018 Edition #36**

## QUALITY PARTS

- Whenever possible, we offer original GM parts. If original GM is not available, we offer GM Restoration parts, which are made to meet or exceed GM's quality standards.
- We also offer high quality non-licensed reproduction parts. We don't sell the low quality reproduction parts that some other parts sellers try to unload.
- We test fit all of the parts that we carry, so that whoever the manufacturer is, we assure you that you will be happy with the quality and the fit.

### **WE STAND BEHIND OUR PARTS.**

- We are constantly adding new items to our inventory. If there is a part that you are looking for and you can't find it in our catalog, please call or visit our website [www.LS6454.com](http://www.LS6454.com).

## PRICE MATCH + 5%

- Price match plus 5% of the difference policy applies to the products listed in this catalog...with the exception of parts marked "GM", due to the difficulties in obtaining these parts.
- Over the years there have been a lot of cheap parts being filtered in to the market. For example, parts made from tooling using reproduction parts as samples. The parts we carry are made from original tooling or new tooling that uses original parts as samples. We will only price match brand name parts or parts that are equal quality. If you want the "cheap stuff", you'll have to go elsewhere.
- We will price match advertised current prices with a copy of the ad showing the following items:
  - 1) Company name
  - 2) Company part number
  - 3) Company price
  - 4) Description of part
  - 5) Company phone number
  - 6) Company location
- The above information must be provided in order for us to price match any part.
- Any company deemed not to be a brick and mortar store, such as someone selling on Ebay out of their home (which is simply a drop ship company), will not qualify for price match.
- We reserve the right to decline this offer at our discretion.

**Pricing and policies are subject to change without prior notice.**

## RETURN POLICY

(This return policy supersedes all others. **Please read carefully.**)

All returns must be pre-approved by calling 256.543.0980 for return authorization. Once you have been issued a return authorization number (RA#), you will have 30 days from the issue date to return your part(s) to us. After 30 days, that RA# will be cancelled and the part(s) cannot be returned on that RA#.

Parts can be returned up to 30 days from the date the invoice was paid for a refund. Shipping will not be refunded. The part(s) returned must be in re-saleable condition in the original packaging. The original packaging must be in good condition.

**\*\*Parts that are NOT eligible for return are:**

No returns on **parts that have been installed or altered**

No returns on **parts not in original packaging**

No returns on **parts in original packaging, where the packaging has been soiled, torn, or destroyed**

No returns on **electrical items**

No returns on **used parts**

No returns on **special order parts**

No returns on **incomplete kits**

No returns on **kits containing special order parts**

In some cases, parts can be returned up to 60 days. Call for details.

Parts can be returned 31 to 60 days from the date the invoice was paid for a refund, which will be subject to a 25% restocking fee. Shipping will not be refunded. The part(s) returned must be in re-saleable condition in the original packaging. The original packaging must be in good condition.

**\*\*See above for parts that are not eligible for return.**

**There are no returns after 60 days from the date the invoice was paid.**

All returns must be accompanied by a copy of the original invoice.

Any returns without the RA# on the outside of the box will be refused. In addition, we suggest that you use the RA# as the reference number when shipping.

It is your responsibility to make sure that the part(s) being returned are delivered safely and undamaged. Make sure that the part(s) are packaged carefully. Insurance on the shipment is highly recommended. If the part(s) being returned are damaged in shipping, it is your responsibility as the shipper to file a damage claim with the carrier.

Any returns shipped COD will be refused.

Shipping charges for returns will not be reimbursed.

**There are no returns after 60 days from the date the invoice was paid.**

## DAMAGES

**All parts must be inspected upon receipt.**

**We must be contacted within 5 days if there are any damaged or missing parts, or if there are any errors in ordering.**

**Damages by UPS:** Have the UPS driver note any damages and then contact us immediately to report the damage. Have the part numbers of the damaged parts(s) ready, along with a description of the damage. We will then contact UPS to file a damage claim. Once the claim has been filed, replacement parts will be shipped. Keep the damaged box, all packaging material and the damaged parts handy for 10 days. UPS will most likely want to inspect the damage.

You must contact us within 5 days of delivery, or you will be responsible for filing the damage claim.

While checking for damages, it is also very important to check your order for any missing parts or errors in ordering and contact us within 5 days.

**Damages by Truck Freight:** All parts that are shipped truck freight are inspected and carefully packed before they are released to the trucking company for delivery. It is the trucking company's responsibility to make sure that your order arrives in the same condition that it left in.

You **MUST** inspect all parts for damage in shipping while the driver is still present. If there is damage, it **MUST** be noted on the delivery ticket (bill of lading) **BEFORE** you sign it.

**If you do not inspect the order or do not note any damage before signing for the shipment, the trucking company is released from any responsibility and the shipment is yours. There will be nothing that we can do once you sign off on it.**

**DASH PADS**

**Simulated Vinyl Molded Dash Pads**

These dash pads are vinyl molded injected with a foam core for a correct appearance and fit. A good alternative to the original true vinyl wrapped style. Available in black only. Not dye-able. Made in the USA.

**True Vinyl Wrapped Dash Pads**

These dash pads are wrapped with true vinyl material with a foam core. They have nice rounded edges and are dye-able to match your interior or they can be ordered in vinyl colors for an exact match. Available in black and colors. Made in the USA.

Same color codes as seat covers. See pages 113-117.

# LS CONVERSION

## 64-67 Crossmember and Engine Mount Kits

This LS swap kit is made specifically for the 1964-1967 Chevelle and El Camino.

It was designed around the LH8 oil pan (GM Classic Muscle Car Oil Pan).

The frame brackets bolt into existing holes in the frame and was designed to give you the best options for other components.

Unlike most LS swap parts on the market this kit replaces the frame brackets in addition to the mounts, so you'll have clean mounting of your engine and not a mix of unrelated parts.

Unlike other mounts, this kit positions the engine so there is no steering interference, and our crossmember maintains the proper drive-line angle for smooth highway cruising.

It provides clearance for the factory AC box, power brake booster, and aftermarket suspension components.

The following combined parts offer an easy, strong, and clean installation of your LS engine.

**Includes** motor mounts, frame brackets, transmission crossmember, transmission mount, and hardware.

Manufactured from the highest grade American made steel.

They're laser cut, precision bent, powder coated and feature polyurethane bushings.

We at John's Classic Cars and Parts feel that this is the best fitting kit that is available. Everything lines up perfectly. These are not universal kits. They are engineered for model year specifications.

## OIL PAN PICKUP TUBE GIRDLE

**AFX6000** 64-72 Pickup tube Girdle and hardware \$59.99 Ea

Original GM oil pickup tubes are fastened to the pump with a single bolt mating flange on the tube. The bolt hole on the other side is not used.

This girdle is cnc machined aluminum and goes over the original mating flange, wraps around the tube, and fastens using both bolt holes.

Use with a little Loctite and it's cheap insurance against an engine meltdown. It comes with two longer bolts for install.

# LS CONVERSION

## Rear Ignition Coil Relocation Kits

This Coil Relocation Kit alleviates the problem of the rear coils hitting the power brake booster or air conditioning box when swapping the LS engines into early vehicles.

The relocation brackets are laser cut from brushed stainless steel for a great clean appearance.

It relocates the rear coil upwards to provide adequate clearance for power brake boosters and air conditioning.

Driver side and passenger side kits include all necessary hardware along with one of our 12" high performance spark plug wires. AFX6900 complete kit includes two plug wires.

Installation is easy, the brackets bolt to the valve cover using existing mounting holes on factory valve covers (as well as most aftermarket valve covers).

They are available for all styles of coils and each side separately or together to add symmetry to your installation.

**AFX6904** 64-72 Vertical mount Driver Side \$119.99 Kit

**AFX6916** 64-72 Vertical mount Passenger Side \$119.99 Kit

**AFX6900** 64-72 Vertical mount Both Sides \$219.99 Kit

# NOTES:

## RETURN POLICY

(This return policy supersedes all others. **Please read carefully.**)

All returns must be pre-approved by calling 256.543.0980 for return authorization. Once you have been issued a return authorization number (RA#), you will have 30 days from the issue date to return your part(s) to us. After 30 days, that RA# will be cancelled and the part(s) cannot be returned on that RA#.

Parts can be returned up to 30 days from the date the invoice was paid for a refund. Shipping will not be refunded. The part(s) returned must be in re-saleable condition in the original packaging. The original packaging must be in good condition.

\*\*Parts that are NOT eligible for return are:

No returns on **parts that have been installed or altered**

No returns on **parts not in original packaging**

No returns on **parts in original packaging, where the packaging has been soiled, torn, or destroyed**

No returns on **electrical items**

No returns on **used parts**

No returns on **special order parts**

No returns on **incomplete kits**

No returns on **kits containing special order parts**

In some cases, parts can be returned up to 60 days. Call for details.

Parts can be returned 31 to 60 days from the date the invoice was paid for a refund, which will be subject to a 25% restocking fee. Shipping will not be refunded. The part(s) returned must be in re-saleable condition in the original packaging. The original packaging must be in good condition.

\*\*See above for parts that are not eligible for return.

**There are no returns after 60 days from the date the invoice was paid.**

All returns must be accompanied by a copy of the original invoice.

Any returns without the RA# on the outside of the box will be refused. In addition, we suggest that you use the RA# as the reference number when shipping.

It is your responsibility to make sure that the part(s) being returned are delivered safely and undamaged. Make sure that the part(s) are packaged carefully. Insurance on the shipment is highly recommended. If the part(s) being returned are damaged in shipping, it is your responsibility as the shipper to file a damage claim with the carrier.

Any returns shipped COD will be refused. Shipping charges for returns will not be reimbursed.

**There are no returns after 60 days from the date the invoice was paid.**

## DAMAGES

**All parts must be inspected upon receipt.**

**We must be contacted within 5 days if there are any damaged or missing parts, or if there are any errors in ordering.**

**Damages by UPS:** Have the UPS driver note any damages and then contact us immediately to report the damage. Have the part numbers of the damaged parts(s) ready, along with a description of the damage. We will then contact UPS to file a damage claim. Once the claim has been filed, replacement parts will be shipped. Keep the damaged box, all packaging material and the damaged parts handy for 10 days. UPS will most likely want to inspect the damage.

You must contact us within 5 days of delivery, or you will be responsible for filing the damage claim.

While checking for damages, it is also very important to check your order for any missing parts or errors in ordering and contact us within 5 days.

**Damages by Truck Freight:** All parts that are shipped truck freight are inspected and carefully packed before they are released to the trucking company for delivery. It is the trucking company's responsibility to make sure that your order arrives in the same condition that it left in.

You **MUST** inspect all parts for damage in shipping while the driver is still present. If there is damage, it **MUST** be noted on the delivery ticket (bill of lading) **BEFORE** you sign it.

**If you do not inspect the order or do not note any damage before signing for the shipment, the trucking company is released from any responsibility and the shipment is yours. There will be nothing that we can do once you sign off on it.**
