Do you know someone with  
**Arthritis, Joint  
or Neuropathic Pain?**

**Made with Natural Ingredients**

# About Mountain Ice

Mountain Ice is the newest product to hit the **pain relief market**. It has taken the active ingredient of menthol and combined **powerful natural plants and extracts** to create a specially designed formula that reaches pain at the source.

The combination creates the **perfect blend of rich ingredients** formulated to **relieve pain, reduce inflammation, improve circulation, and promote better muscle and joint healing**.

Mountain Ice works by **cooling the top layer of skin** which **numbs and blocks pain signals to the brain**. This provides temporary relief of minor aches and pains of muscles and joints associated with **osteoarthritis, rheumatoid arthritis, neuropathy, muscle strains and sprains**.
