Pic 2

Kit used per bracket
U-bolt

M10 flat washers
M10 Spring washers
M10 Hex nuts
Top bracket

1

Tighten the u-bolts to 30Nm using the torque wrench

Step # Description/Method

This step is fitting the drivers side top brackets. Locate the chassis shown in Pic 2. You will see an indentation, using a U-bolt position it to look like Pic3. Using the kit, loosely mount the top bracket to the outside of the chassis.

2.1

Do the same to the passenger side

Visual /	Graphic	Illustration

Pic 7

Using the masking tape wrap the top left and right corners of the bumper up(shown in pic7). This is to protect it from possible scratches when replacing the bumper.

Description/Method

Carefully place the bumper back on the vehicle.
