CUTTING FLUIDS DIRECT

SterlingCool AR501-CL

SterlingCool's AR501-CL is a heavy-duty and high lubricity straight cutting oil formulated with Sulfur and Chlorine to provide excellent tool life and finish for severe machining applications. AR501-CL is formulated with a combination of premium extreme pressure additives that excel in threading, broaching, grinding, deep hole drilling and milling applications. It contains a pleasant cherry/vanilla fragrance that remains fresh and clean while machining. An excellent choice for screw machine shops, pipe yards, etc.
