

SterlingCool

CUTTING FLUIDS DIRECT

SterlingCool-VG10

SterlingCool-VG10 is a premium top of its class vegetable oil base cutting fluid. It provides an incredible combination of extremely high lubricity and low viscosity allowing the VG10 to penetrate down into the cut. SterlingCool-VG10 provides excellent boundary lubrication with the precise alignment of the vegetable oil lubrication technology without the use of chlorine. The premium boundary lubricant consistently aligns to the metal working piece to achieve excellent tool life and lubrication. It is highly effective on aerospace metals and tough steel and nickel alloys. SterlingCool-VG10 has a higher flash point than many cutting oils which makes it safer to use.

LAB DATA

LAB DATA	
Physical State	Yellow/Amber Liquid
Odor	Mild
Weight, LB/Gal @60 F	7.98
Flash Point COC	420+

Advantages

- Premium Lubricant
- Extremely Clean
- Multi Metal Machining
- High Flash Point, Safer to use
