

THE WHIZZERLAND FAIRYTALE

by Zoë Chapman
(Kiddiwhizz Founder)

There is a little village hidden in a forest not too far from you called Whizzerland.

You may not have heard of it yet but that's where the Whizzie fairies live and they need YOUR help!

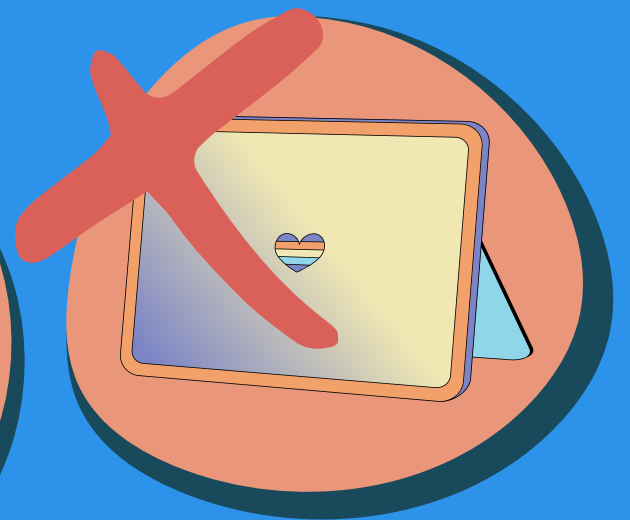

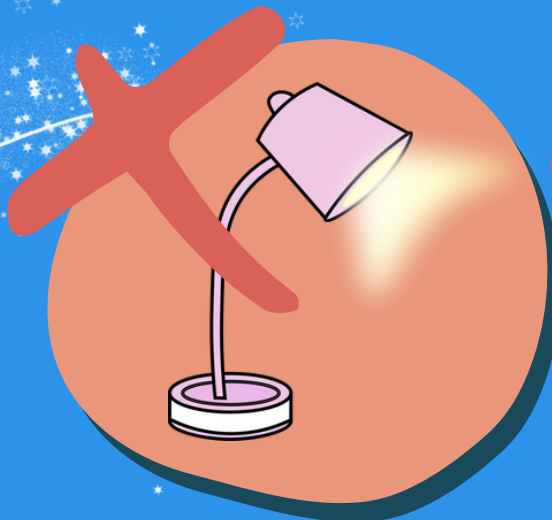

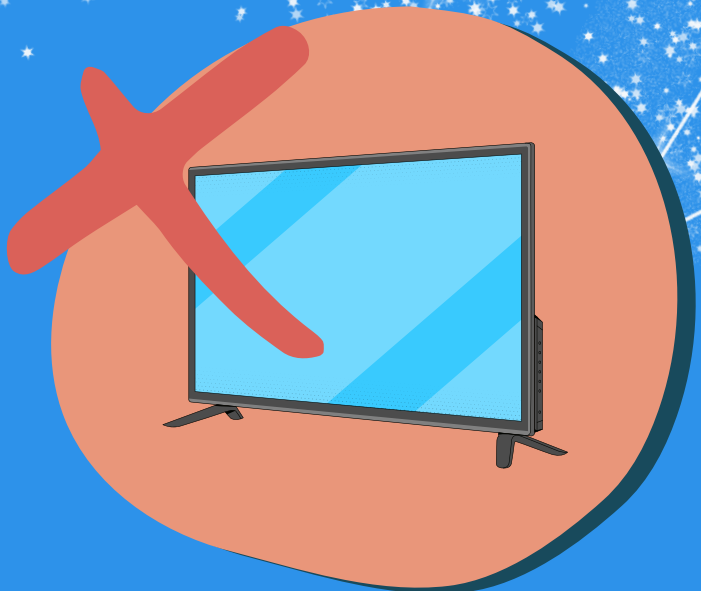

The whizzies loved to sing, dance and practice their magic day and night.

Everyone was so happy there until one day all the electricity turned off!

They didn't know what to do!

There was no power to turn the lights on so it was really dark. There was no power cook their dinner or turn on the TV to watch their favourite programmes! Not even their magical powers couldn't fix this!

That's why they made the Whizzer! It took years of hard work to find out that it was children's magic wee that they needed!

If you're reading this story and have been given a Whizzer it means YOU have the magic wee they need!

Each time you fill up your Whizzer it magically turns into power for the fairies in Whizzerland!

**Are you ready to join a
team of Whizzer
superstars who are
helping the fairies right
now?**

**If you want to tell the
fairies it was you who sent
them your magic wee then
just have some bubbles
ready to blow after you're
finished!**

Parents checklist:

- Practice putting the Whizzer together before testing it at home with your child
- Reenforce the story with excitement and praise for each step of success.
- Have bubbles and reward stickers to hand when starting out.
- We've all been there and some kids take longer than others... You've got this!

It does get quicker but make sure you've followed the instructions so there's no accidents.

We send out Whizzer superstar reward packs. Check the website for more info.

Kiddiwhizz socials and website will have more resources for support if needed.
