

HIBI chopsticks have been carefully handcrafted by artisans. With just the right thickness they are comfortable to hold, and the fine tip makes it easy to pick food. The top part has a cut design that serves as an accent. There are two sizes: 235mm for adults and 180mm suitable for small children. Finished with beeswax and a careful polishing process, the chopsticks have a pleasant matte feel. The natural expression of the wood blends well with other tablewares.

Natural wood (cherry, ironwood, beeswax finish)
