the fact that at the heart of each masterpiece is an original artwork painted on a specialized canvas with acrylic paints by a professional artist. Paul Adams is 100% homegrown and promotes lesser-known artists and their artwork from various parts of the country and truly stands for #vocalforlocal from its very inception.

Each bag is unique and has a story to tell about the journey of the artist and his artwork. The Boombox bag: Handcrafted by Artist Rajkumar Sarde, this bag is inspired by the swinging, colourful eighties, Boombox is a head turner. Vintage Satchel Radio Bag: The Vintage Radio Satchel Bag is a throwback tribute to yet another forever symbol of romance and melody.

Emerging out of our Leather Pop Collection, Swapnil Jagtap's Pop Art is inspired by the contours of

the much-loved radio, so integral to the music genre that is forever etched in our hearts. The hand painted acrylic art on canvas is quirky, individualistic and whimsically boho. The colors and elements used are minimalist yet bold in look and feel. There is nothing abstract about the art, it is well defined and a personal statement of the wearer's free-spirited lifestyle. Saffi Handbag: Saffi is all about women as an epicenter of courage that adds to her spiritual beauty. Nisha Sutar has created an illusion of space and depth, by using monochromatic tones in a graded method so that the composition appears layered. A unique blend of classic Gothic Illustration style and Folk Art elements on the sides create an intriguing visual.

Orion Portfolio Bag: Orion is a camera inspired messenger bag. The bag suitably frames the painting giving it the likeness of a camera lens. Artist Rajkumar paints his take on the all-seeing eye of a hunter that observes everything - yin and yang, desire and decision, hot and cold, motion and stillness. In Greek mythology, Orion was the son of Poseidon and Euryale and a famed hunter.

The warm and cool colors of the fishes and other elements framing the eye convey a sense of dichotomy - much like the flux in the mind of the hunter on a hunt. Crafted from genuine leather in tan, it features a sleeve for you to easily slide in your iPad or tablet, with enough space for your daily required documents, additional pocket to keep a mobile, a front circular zip pocket. It features a long adjustable leather strap and one pocket on the back as well. Weekend trips and meetings - they were never as much fun.
