To the point: Think bag, think Paul Adams. These beauts are handcrafted leather goodies with art hand painted on them by their designers. Their bags are a perfect accessory for any occasion and go with any outfit.

What's hot about it?

Neat cuts, designs, art on the bag, Paul Adams is a Mumbai-based brand that ships worldwide. They have a bag line for both men and women. And they empower local artists as the art on their bags is by locals.

From coin pouches to wallets to laptop bags to handbags to messenger bags to sling bags to backpacks, and more, they have steal-worthy leather bags. They even have travel kits, portfolio cases, sleeves and more. We are in love with their Orion Portfolio Bag, their Amie Wallet and Coin Case. and Coco Mini Tote bag. They work with tanneries that manufacture ethical leather only.

Hot Tip:

One can even shop by the collection that they release. But lay hands on one you love soon as they also make limited-edition bags.

Price:

Rs 7000 onwards
