CARE & MAINTENANCE

This furniture product is made of 100% PolyTEAK® lumber, an all-weather material that is naturally resistant to water. With the combination of marine-grade hardware and all-weather design, you can have complete confidence in leaving your newly acquired PolyTEAK furniture outside season after season.

Routine cleaning of the furniture can be completed with only warm water and soap, while bleach may be mixed with the water (25% Bleach, 75% Water) for extra cleaning power. A stiff bristle brush can help to remove any particles from between the simulated wood grain.
