### **DIRECTIONS FOR USE**

**Cleaning your displays.** Always turn off all electronics before cleaning. Spray solution directly on the "CLEAN" side of the provided cloth and gently wipe screen to clear marks, dust, and debris. Then flip the cloth over to the "POLISH" side to gently buff to perfection. Only use the Austere provided cloth to clean your electronics. Spraying cleaner directly on the electronics or using other materials to apply cleaner can damage your electronics and could potentially void the warranty of your devices. It is recommended that you refer to your device's user manual prior to using Clean & Protect.

**All of Austere's Clean & Protect products are alcohol free, ammonia free, allergen free and static free.**

**Cleaning and care for your dual sided microfiber cloth.** It is important to wash after every use as the cloth will collect dirt and dust which could scratch screens if used without washing. Simply hand or machine wash the microfiber cloth with warm water only. Once washing is complete, remove the cloth and air dry. It is important that you do not machine dry as it will damage the cloth.
