

Lifting Columns for Home & Office Automation

Our lifting columns allow you to move heavy equipment up and down effortlessly by adjusting the height with just a push of a button.

FLT-11

THE PERFECT CHOICE

This lifting column is for applications that require a single central lifting column. All you need to do is secure the actuator to the ground, mount a tabletop, and they are ready to go!

Easy Plug and Play

Connect to a 110 VAC outlet to power up

Overcurrent Protection

Automatically stops when it detects a current spike

Self-Locking Feature

Automatically locks when idle for 10 seconds

Anti-Collision Sensor

Will detect any object obstructing its path

Low Noise

Quiet movement of the lift

Force Rating

Rated for up to 225 lbs

Compact Design

Portable and Easy to store

5 Year Warranty

Whether the lifting FLT-11 column is being used in an industrial or domestic environment, the finished aluminum surface provides a sleek aesthetic look that doesn't compromise the integrity of this truly durable product.
