Trumom

Baby Carrier -2005

• QUICK STARTUP GUIDE •

Only use this Baby Carrier for children between 7.9 lbs to 26.4 lbs (3.6 kgs to 12 kgs).

Step 1

Adjust the Trumom Baby Carrier seat as per your baby's height using buckles and Velcro.

Step 2

Position the head and arm pads supports to make the carrier a perfect fit for your baby.

Step 3

Adjust the carrier's seat and shoulders' straps to make your baby comfortable in any carrying position.

Step 4

To take baby out safely, simply squeeze & lift baby up to loosen and unbuckle the shoulder straps and take baby out.

IMPORTANT

There are 3 Baby Carrying Positions;

FORWARD FRONT (ideal for babies above 6 months)

INWARD FRONT (for babies above 3 months)

BACKPACK WAY (for babies above 6 months)

IMPORTANT!

For the safety of your child, read all instructions carefully before assembling and using Trumom Baby Carrier. Failure to follow each instruction can result in serious injury to your baby. Also, keep instructions for future use.

OVERVIEW

The Trumom Baby Carrier is a truly excellent carrier in the market with some very comprehensive features. It is versatile, with a wide weight range (3.6-12 kg), three carry positions, and kids up to 3 years. It is versatile enough to adapt to different weather conditions because its exterior fabric is highly breathable. It allows cool air to enter the baby's back, sides, and torso to reduce the insulation effectively. There were several other features in this carrier that you will definitely love. It has a convenient front pocket for storing little things during outdoor visits. The carrier is adjustable in several ways to both the wearer and baby. It is easy to put on and take off with a baby.

- NEVER use this carrier as a car safety seat.

CARE INSTRUCTIONS:

To extend the life and integrity of the baby carrier it is recommended that product is regularly cleaned with a damp cloth. Machine wash if necessary, separately in cold water with gentle cycle. Drip dry only, no dryer. Do Not bleach, fabric softener or chemical. Do not iron.

• DIFFERENT STYLES OF USING TRUMOM BABY CARRIER •

This product is a single-baby carrier designed for cradling or back-carrying the baby comfortably during outdoor activities. You can carry your baby in three different positions – forward front (ideal for babies above 6 months), inward front (for babies above 3 months), and backpack way (for babies above 6 months). However before attempting a new carrying position, please review instructions carefully and use it accordingly.

• PUTTING BABY IN-FACING IN •

Step 1

Put on the baby carrier by passing the shoulder straps over your head crossing behind your back and fasten the buckles.

Step 2

Unbutton head support, side openings and Velcro fasteners of both sides. Place the child in the baby carrier facing you, with the legs on either side of the front and the arms through the arm hole.

Step 3

Fasten the buckle safely. Adjust leg opening to smallest size.

Step 4

Adjust the head support before releasing your hold on the baby, ensure that the buckles are securely fastened.

• PUTTING BABY IN-FACING OUT •

Step 1

Pass the shoulder straps over your head, crossing behind your back and fasten the buckles at both sides of the carrier.

Step 2

Sitting down, release one side of the head support. Unbuckle the side opening and detach Velcro fasteners. Carefully slide baby into the carrier through the opening, making him or her face away from you.

Step 3

Make sure that each of baby's legs is through the leg opening. Fasten the Velcro fasteners.

Step 4

Fasten buckles over Velcro side opening and the head support buckles. Adjust the head support straps until baby's back is snugly against your chest. Baby should not lean forward. (Notice: A smaller baby's arms should be positioned through the arm holes. A bigger baby's arms will rest comfortably over the side of the head support.)

Step 5

While supporting baby's weight with one hand, pull on the end of webbing strap to adjust fit. Leg opening must be adjusted to the smallest possible size. Before releasing your hold on the baby, ensure that the buckles are securely fastened.

• Putting Baby Back Position •

Step 1

Place the carrier on a flat surface. Place baby into the carrier and attach the fastenings and buckles.

Step 2

Have a second person hold baby at your back. Pass the shoulder straps over your shoulders and fasten the side buckles and chest buckles.

Step 3

Adjust the shoulder straps until the baby and you feel comfortable. Before releasing your hold on the baby, ensure that the buckles are securely fastened.

• TAKING BABY OUT SAFELY •

- To take baby out, simply loosen the shoulder straps & take your child out from your shoulder strap and slide baby out.

Important

- Adjust the carrier until baby is high on your chest. You should be able to easily kiss the top of your baby's head.
- A smaller baby's arms should be positioned through the arm holes (see illustration). A bigger baby's arms will rest comfortably over the sides of the head support.

Warning:

- If baby falls asleep, please turn baby's face to the side so as to provide an unobstructed source of air.
- There should always be room between baby's face and your chest to provide a clear source of air.

• HOW TO KEEP YOUR CHILD SAFE WHILE USING THIS BABY CARRIER •

WARNING-FALL HAZARDS

1. Make sure to tighten buckles, toggles, straps, and other adjustments before each use to secure your baby.
2. Always make sure that your baby's nose and mouth are clear and unobstructed by the Carrier or clothing to ensure easy breathing.
3. Ensure baby face towards you all time with neck and head completely supported.
4. Hold on to your baby tightly until all buckles and latches are secured in place and straps are pulled tight around the user's body. sit down when placing and removing baby.
5. Make sure baby's body parts and skin are clear when locking buckles or snaps to prevent from pinching.
6. Check often to ensure that the baby is not too hot, straps are snug but not too tight and the baby is secure.

HELPFUL HINTS

1. To minimize stress on your shoulders and back, spread the fabric on your shoulders to evenly distribute the weight of the baby.
2. To nurse in privacy, sit down comfortably, loosen the straps and have your hands support the baby and the baby carrier at all times. Make sure to tighten the straps again before standing.
3. When learning to Place your baby in the baby carrier, do so over a bed or soft surface, or with the help of another person.
4. If you feel that the baby carrier is too tight for your baby:

Step 1: To check if the Size Adjustment Buckle is in the correct position for your baby's size.

Step 2: To adjust the Straps, buckles to increase the length of the Straps. This will give more space for you and your baby.

PRODUCT WEAR WARNING:

This product is subject to normal wear and tear over time. The user should inspect this product before each use for signs of deterioration such as tears or separations.

• MAINTENANCE AND CARE •
