On the chart at the end of your workbook is a graph of the reigns of the kings. King Saul began to reign in 1050 B.C. (before Christ). Because the Old Testament looked forward to Christ's birth as the great event in history, all history is reckoned from His birth. Old Testament history goes backward, as a count-down to the year one. Remember, the numbers on the chart will always decrease.

Print Saul in the first bar, at 1050

Under Saul, print David at 1010

Under David, print Solomon at 970

On the chart of the kings of Israel

Print Jeroboam at 931

On the chart of the kings of Judah

Print Rehoboam at 931
