Foamdaddy Silent Night Machine Set-Up

Included in box:

- 5 gallon reservoir
 - Snow Blower Head
 - Control Module
 - Clear tube
 - 20 ft. Black tube
 - 1 gallon of solution
 -
1. See Manuel provided
 2. Add 1 cup of solution per every 5 gallons of water. (depending on how big you want your snowflakes) The more solution the bigger the flake. No more then 2 cups per 5 gallons of water.

Note: If the machine stops working make sure you check the breaker located directly above the red power switch.
