**Protective Precautions,** Protective Equipment and Emergency Procedures:

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. For personal protection see section 8. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

**Environmental Precautions:** 

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Discharge into the environment must be avoided.

Steps To Be Taken In Case Material Is Released Or Spilled:

Soak up with inert absorbent material and dispose of as hazardous waste. Keep in

suitable, closed containers for disposal. Personal precautions.

Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low

areas.

Environmental precautions.

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Sweep up and shovel.

**Personal Protective Equipment Symbols:** 

Respiratory Equipment (Specify Type):

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi- purpose combination (US) or type ABEK (EN 14387) respirator

cartridges as a backup to engineering controls.

If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government

standards such as NIOSH (US) or CEN (EU). Wear respiratory protection.

Respiratory protection is not required. Where protection from nuisance levels of dusts

are desired, use type N95 (US) or type P1 (EN 143) dust masks.

**Eye Protection:** Face shield and safety glasses. Use equipment for eye protection tested and approved

under appropriate government standards such as NIOSH (US) or EN 166(EU).

**Protective Gloves:** Handle with gloves. Use proper glove removal technique (without touching glove's outer

> surface) to avoid skin contact with this product. Wash and dry hands. Full contact. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers.

It should not be construed as offering an approval for any specific use scenario.

Other Protective Clothing: Impervious clothing. Complete suit protecting against chemicals. Flame retardant

antistatic protective clothing. Choose body protection in relation to its type, to the

concentration and amount of dangerous substances, and to the specific work-place. The type of protective equipment must be selected according to the concentration and

amount of the dangerous substance at the specific workplace.

**Engineering Controls** (Ventilation etc.):

Handle in accordance with good industrial hygiene and safety practice. Wash hands

before breaks and at the end of workday. General industrial hygiene practice.

Work/Hygienic/Maintenance

Practices:

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately

after handling the product.

**Environmental Exposure** 

Controls:

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Discharge into the environment must be avoided.
