

TOTAL TEAM AWARENESS IN ANY SITUATION

Today's operating environment is increasingly mobile — but the ability to maintain situational awareness typically ends when the connection to a centralized network is lost, goTenna Pro X2 allows every team and every operator at all levels to use fully off-grid mesh networking capabilities so they can stay agile and informed throughout the entire mission.

A MOBILE MESH NETWORKING PLATFORM **BUILT FOR OFF-GRID OPERATIONS**

*VHF is intended for fixed and mobile antenna mounting configurations. For other configurations, including portable, please contact goTenna.

CORE DESIGN PRINCIPLES

LOW-COST

Significantly less than traditional radios

EASY-TO-USE

LOW-POWER

Up to 9 hours per charge during standard usage

PROGRAMMABLE

LONG-RANGE

Up to 6 hops across devices

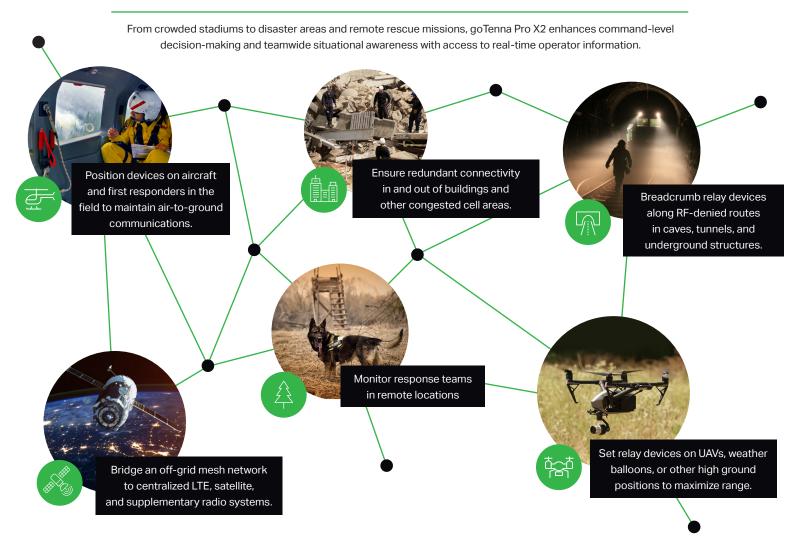

SECURE

End-to-end PKI encryption

EXTEND THE EDGE OF CONNECTIVITY

The ability to know where each member of our team is located is critical for keeping our people safe when responding to a disaster or missing person incident.

ABOUT GOTENNA

goTenna is the world's leading mobile mesh networking company and provider of off-grid connectivity solutions for smartphones and other devices. In the public sector, goTenna's innovative mesh networking protocol is embedded into lightweight, low-cost tactical radio devices and paired with easy-to-use mobile apps enabling mobile, long-range connectivity even without cell, wifi, or satellite.

The goTenna vision to create a resilient communications system was ignited during Hurricane Sandy in 2012, when approximately a third of cell towers and power stations were knocked out. Based in Brooklyn, goTenna now supports mission-critical law enforcement, public safety, and defense operations around the world.
