SURF

THE SPARKY FRIENDLY CEILING FAN

Contractor friendly, high performance & designer looks - the new SURF DC ceiling fan range has everything to make your life a breeze.

The all new Surf ceiling fan is built to be waves above the rest - combining electrician-friendly assembly & install, with seamless design & endless features.

This Australian designed fan range is built with the sparky in mind - featuring open access screws for quick blade assembly, screwless terminals for fast wiring, and plenty of space above the receiver for easy wiring entry - hallelujah we hear you say!

Powerful airflow of up to 14,194m³/hr (**real air movement**), non-rust all ABS blades & housing, and low profile LED light models ensure SURF fans all suit a standard 2.4m ceiling.

Available in 48", 52" & 60" sizes, with or without LED light, and in Black, White, Oak or Burmese Teak finishes, the Surf fan is the perfect all-rounder.

Increased Space Above the Receiver	Easy Blade Assembly - Open Screw Access
Screwless Terminal Block	Air Movement up to 14,194 m ³ /hr (60")
UV Resistant ABS Construction	Tropically Rated
6 Speed (Includes Night Mode)	Smart Compatible
	6 Year Warranty (3 Years in-Home)

SURF

THE SPARKY FRIENDLY CEILING FAN

INCREASED SPACE ABOVE RECEIVER

The EGLO Surf fan range features increased space above the receiver to allow plenty of room for wiring entry - no more squishing to fit everything in the canopy!

ENGINEERED FOR PERFORMANCE

EGLO's commitment to high performance doesn't waver with the SURF fan. Using only exceptional quality components & engineered to give you excellent air movement - our stated air movements are real.

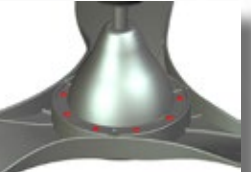

SCREWLESS TERMINAL BLOCK

Fast & secure connection - featuring a quality screwless terminal block that fits actual Australian cable in with ease, wiring the SURF fan is a breeze.

MINIMAL HOUSING SIZE

Just because it's built for trade, doesn't mean it shouldn't look good! The low profile housing of the Surf Fan keeps the seamless contemporary design & style you've come to expect from EGLO.

FAST BLADE ASSEMBLY

With open access blade screw positioning, there is no motor assembly required after fitting blades, simply screw them on & hang it up - easy.

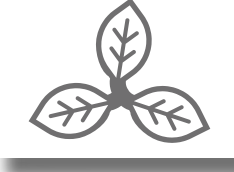

LOW PROFILE LED LIGHT

SURF Fan LED light models feature a super low profile 20W LED tri-colour LED light, that can be dimmed via the included remote (or my control app with Smart USB module installed).

SMART VIA USB MODULE

Turn the Surf fan into a smart fan, with the addition of the EGLO my control Smart USB Module, allowing you to pair the fan with the EGLO my control app, and easily control it from your smart device (sold separately).

NO MORE POLYFOAM PACKAGING

Featuring new environmentally friendly 'egg carton' style packaging inserts, along with recyclable parts packets - better for the planet, & much easier to dispose of than polyfoam!

SURF

MY CONTROL - SMART COMPATIBLE

Turn any model in the Surf ceiling fan range into a smart fan, with the addition of an EGLO my control Smart USB Module. Simply plug the Smart USB Module into the existing receiver before, during, or after installation. This allows users to pair the fan with the EGLO my control app, and easily control it from their smart device (smart device sold separately).

BENEFITS

- Turn your fan or fan light on / off
- Adjust your fan speed
- Set timers and schedules
- Control your fan from anywhere in the world
- Controllable via intelligent voice assistants such as Google Home, Amazon Echo & Siri
