

Trusted performance, everyday.

The new Philips tri-colour oyster offers a discreet, professional design to blend perfectly into a variety of environments. The three easy to select colour temperatures allow for further ambience adjustment to compliment each unique space.

The dimmable SmartBright Oyster also comes in two different sizes and lumen outputs, making it ideal for a wide range of applications – from a small bedroom to a large living or dining area.

Features and benefits

- ✓ Available in both 300mm and 400mm diameters
- ✓ High quality driver and LED light source
- 3 selectable colour temperatures in each device via built in dip switch
- ✓ IP54 design ideal for damp and wet areas

Applications

- ✓ General residential and commercial buildings
- ✓ Office spaces, corridors, restrooms and cafeterias etc.
- ✓ Hallways, bedrooms, living areas and dining rooms.
