## CONTENT OF THE BOX

## ASSEMBLY PROCESS

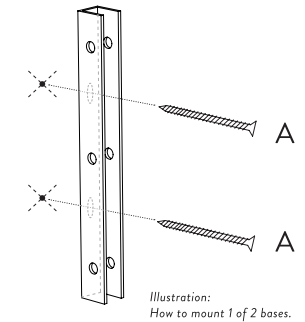

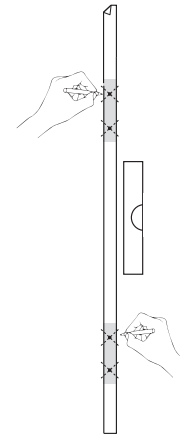

**1**

### CHOOSE POSITION

Choose a position on the wall. Use the enclosed life-sized measuring paper.

Hold the paper against the wall and make sure that it is level. If needed, tape the measuring paper to the wall.

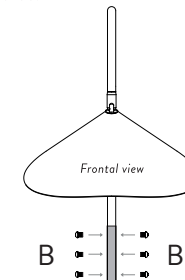

Punch trough the paper with a pencil to mark the position of the four drilling holes.

**2**

### MOUNT UPPER + LOWER BASE

Start by drilling 4 holes in accordance to the pencil marks. Insert the 4 rawlplugs. Mount both the upper and lower base to the wall by using the 4 longer screws (A).

**4**

### MOUNT LAMP TO BASE

Finally, mount the lamp by inserting the 2x6 shorter screws (B). 3 on each side of each base.

Start with the upper base and continue to the lower base.

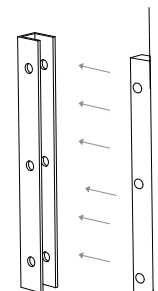

Illustration: How to mount 1 of 2 bases.

**3**

### INSERT LAMP ON BASES

Slide the 2 boxes on the backside of the cylinder into the 2 bases.
