EXPLORE WITH US

We are heritage adventurers deeply connected to our visual past. Exploring visual gold long forgotten. We bring back life to old images found in rare books, hidden in galleries, archives, libraries and museums

In our studio we re-create the original images into contemporary wall art. We digitize, adjust, change and remix while keeping our scandinavian design heritage in mind

Each piece is printed on high quality art paper using archival ink in our studio in rural Copenhagen, Denmark

Thank you for taking part in our expedition

Henrik Dybdahl
founder

MUSEUM DYBDAHLUM

New findings from our expedition into the unknown areas of visual heritage. With the Museum Dybdalum collection we highlight drawings and hand colourings from the early days when the world was full of white spots yet to be discovered.

Designed with a special gold frame and black passepartout.

All designs 15x21 and 21x30 cm. Size referring to passepartout.

CURATE YOUR OWN COLLECTION

Twice a year we curate a collection for the coming season spring/summer or autumn/winter. All designs can be viewed online and on a large analogue product sheet for easy selecting

Besides the curated collection for the season even our large back catalogue is online waiting to be re-explored and mixed into contemporary settings. You might need a guide for this as we have quite a large number of designs

Ask and we are happy to help you
