Bird of Paradise

Strelitzia

Origin: South Africa

Light Preferences

Thrives in bright indirect to direct light levels.

Water Preferences

Water every 1–2 weeks, allowing soil to dry out between waterings. Expect to water more often in brighter light and less often in lower light. This plant can benefit from extra humidity. Bird of Paradise can be sensitive to hard tap water. Try using filtered water or leaving water out overnight before using.

Sad Plant Signs

Splits along sides of leaves: Normal adaptive precaution to help plant bear strong winds in its native habitat.

Yellowing lower leaves, wet potting mix: Plant is overwatered.

Wilting, curling leaves, dry potting mix: Thirsty plant, underwatered.
