Light Preferences

Thrives in bright indirect light, but can tolerate medium indirect light. Direct sun tolerance is species dependant.

Water Preferences

Water every 1-2 weeks, allowing potting medium to dry out between waterings. If kept in decorative, cache planter, pour out excess water after watering. Expect to water more often in brighter light and less often in lower light. This plant can benefit from extra humidity.

Sad Plant Signs

Wilting, wrinkling leaves:
Plant is underwatered.

Yellowing leaves:
Overwatered, or too much sun.

Wilting flowers:
Ending its yearly blooming cycle, storing up energy to re-bloom.

Pet Parents

This plant is pet friendly!
