Pilea

Origin: Throughout the Tropics

Light Preferences
Thrives in bright direct light, but can tolerate bright to medium indirect light.

Water Preferences
Water every 1–2 weeks, allowing soil to dry out between waterings. Expect to water more often in brighter light and less often in lower light.

Sad Plant Signs
- Wilting plant or curling leaves, dry potting mix: Plant is underwatered.
- Yellowing leaves, black stems: Plant is overwatered.

Pet Parents
Most pileas are pet friendly!
