

Bulletproof™ Ground Cover

Block out weeds and conserve water with our new heavy-duty ground cover. Made of 3.5 oz tear-resistant woven polypropylene, Bulletproof™ ground cover is ideal for nursery production and professional landscaping. UV-stabilized and permeable to air and water. Strong, heavy-duty construction resists punctures to last for years.

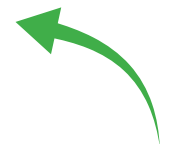

What makes our ground cover Bulletproof™?

Resists Fading. We use 50% more UV protectant than standard ground covers.

Heavier Weight. Our ground cover is 3.5 oz/ sq yd versus other manufacturers 3.0-3.2 oz.

Better drainage. Featuring double the water permeability vs other ground covers.

Green pot aligner woven into fabric at 12" intervals
