
We offer flexible production and delivery options to meet the timeline that fits you best.

Our standard production time is 30 calendar days. Orders made on this standard production timeline will ship UPS ground unless otherwise informed.

We're able to use third party UPS shipper accounts or bill you at cost. We also offer expedited production timelines of 7, 12, 15, and 20 calendar days. These options account for delivery time as well, so your order can ship with rush delivery to arrive in the exact number of calendar days from when it is placed - meaning no more guesswork with delivery schedules.

Expedited manufacturing & shipping

Expedited production timelines incur a rush fee based on the order total, not including shipping. See the table below for these fees and the necessary shipping speeds if ordering with our expedites to ensure delivery in time.

We're able to use third party UPS shipper accounts or bill you at cost.

We can honor your choice of shipping method in conjunction with our expedited production times, however, we will default to the options listed in the table below if that is not specified. All production times are in calendar days.

PRODUCTION	6 DAYS	11 DAYS	13 DAYS	18 DAYS
RUSH FEE	20% of order	15% of order	10% of order	5% of order
DEFAULT SHIPPING	NEXT DAY AIR	NEXT DAY AIR	2ND DAY AIR	2ND DAY AIR

All production times are in calendar days.

Production timeline begins once a purchase is received and approved, and art or samples are approved.

We use UPS for all ground and rush shipments. We do not use FedEx, and if a UPS account is not provided we will bill you at cost. Generic samples may be sent USPS First Class.

FOB Point: Denver, CO 80204

Drop shipments can be accommodated for up to two additional locations at no added cost. Additional drop shipments are subject to a \$20 net fulfillment fee.

For international shipments, please provide a third party UPS shipper number. Knotty Tie Co. is not responsible for any taxes, tariffs, duties, brokerage fees, or other charges. These charges are outside of our control, and we cannot predict them. These charges are the responsibility of the customer.
