

# BRACING SHELF INSTALLATION

FOR CONICAL, FLEX AND FLEX+

- 1 Flip the fermenter upside down and remove the leg caps, leg feet or casters if they are attached to the fermenter
- 2 Place the extended shelf on the legs with the nuts facing down (the legs may need to be adjusted slightly to align)
- 3 Attach the extended bracing shelf to the fermenter using the allen head bolts provided
- 4 Attach your leg feet or casters to the extended bracing shelf by screwing into the welded nut
