# STAR SAN

## HIGH-FOAMING SANITIZER

---

An acid based sanitizer that is quick, odorless, and tasteless. Works well and is safe on most surfaces other than soft metals. The high foaming action insures coverage and better penetration of nooks and crannys.

### KEY FEATURES

- Self-foaming, which helps to penetrate cracks and crevices.
- Odorless, flavorless, biodegradable, and environmentally friendly.
- Will not harm septic systems.
- Reduces water spotting and can be used without rinsing when used at the recommended dilution.
