

Ocean Jewel

Jean-Michel Lemieux

Jean-Michel,

Thank you for the opportunity to present our art to you. I appreciate your willingness to connect. That means a lot.

Enclosed is information about our story and art, and specifically Ocean Jewel the ocean wave abstract you like.

Looking forward to your thoughts, and my brother and I are enthusiastic to talk to you about making an art piece for you!

Ocean Jewel

*The Story of Ocean Jewel
Carlsbad, California*

On an early November morning in Carlsbad, the ocean conditions were perfect. Breezy offshore winds, beaming sunrise light, and shore breaking swells - all at the same time.

I lined up the super-telephoto lens tight and narrow to bring the perspective up close... the detail, color expression, and clarity of the sunrise on the wave were incredible!

Ocean conditions all came together in harmony this moment and I'm glad to share the experience with you.

Acrylic Finish

We start with an archival print on Pearl Metallic archival photo paper to ensure the very finest details and tonality. Using optically clear adhesive we mount the print to glass like acrylic (1/4 or 1/8" depending on selection) giving your image a remarkable depth and brilliance. An acrylic protective backer is then applied followed by an inset 3/4" deep rear mounted aluminum frame. The frame allows the art to float off the wall creating a clean modern aesthetic.
