Design brief: You can include as much or little detail as possible, you can even use words here. Generally speaking, the more detail, color, and complexity, the higher the difficulty and cost may be associated with your design. All embroideries will be interpreted by the textile artisans and adapted to the best of their abilities and the natural design constraints of hand embroidery. *(Print with 'fit-to-page' and landscape format)*

*Our best advice: Have fun, don't take it too seriously, and let's see what art we create! Happy designing!*
