

PANEL UPP

ACOUSTICA

FEATURES OF ACOUSTICA

Acoustica wall panels are a versatile and practical solution for improving the acoustic performance of any room. The panels are made from premium wood veneer with a unique sound-absorbing felt. These panels are designed to absorb sound waves and reduce echo, reverberation and general background noise.

SOUNDPROOFING

The acoustic felt absorbs the sound waves and helps to dampen the sound

SUSTAINABLE- ECO FRIENDLY

The acoustic felt is made from 100% polyester (PET) and is soft and resistant to stains

EASY INSTALLATION

No need to worry. Installation is easy. It's the perfect DIY-project

VERSATILE

Suitable for residential and commercial space. The textural properties add warmth and personality to the wall. Great for home offices.

EASY TO CLEAN

Clean with a vacuum cleaner or a dry cloth

HIGH QUALITY

Premium quality wood-veneer, has a rich wood grain finish

FLAME RETARDANT

ASTM E 84 CLASS A
EN 13501 CLASS B

MODERN AND ELEGANT DESIGN

Designed to effortlessly transform any space, wall or ceiling. Creates real luxury
