

GT3 Update #3

Deposit Update

Greetings!

The OO gauge model, which will be coming soon, will be the first model to be manufactured by KR Models. The factory will take the 2D drawings that KR Models have supplied and they will convert them into 3D CAD renderings. We are very close to getting the project underway. People who signed up on the 'Expression of Interest' link and have not yet put down their deposit are asked to soon as possible. KR Models cannot stress enough that your commitment in this project is what will bring the GT3 to life.

KR Models would like to thank everyone who has put a deposit down for the first stage of the GT3 project. We have had an overwhelming response in deposits and look forward to the next stage, the CAD screenshots. Very exciting times ahead.

Here is the link to pay your deposit.

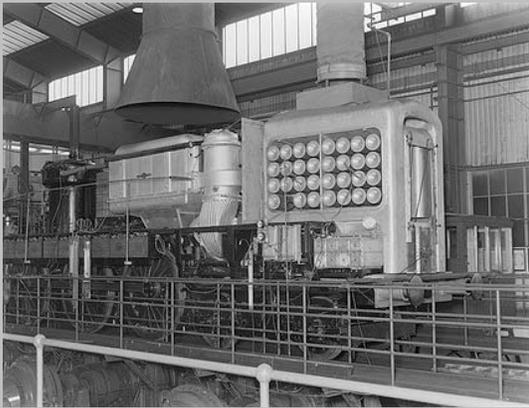

<https://krmodels.co.uk/gt3-gas-turbine>

The payment plan is as follows.

DCC Ready - £185 plus shipping;
1st Payment of £50.00, to secure your model.
2nd interim payment of £70.00, to start the tooling of the model.
Final payment of £65.00 to complete the manufacturing process.

DCC Sound - £285 plus shipping;
1st Payment of £50.00, to secure your model.
2nd interim payment of £80.00, to start the tooling of the model.
3rd interim payment £80.00 for the sound decoder.
Final payment of £75.00 to complete the manufacturing process.

Deposits are non-refundable if you change your mind.

Production Schedule

We hope to request the second installment in June 2019, also giving you 30 to pay. This will start the tooling process, this should take about 6 - 8 months then we will be requesting the final production payment. If you ordered the sound version then there will be a Decoder payment during the tooling process.

Future developments

We are currently working on a side project that will complement the GT3. A further announcement will hopefully be coming soon.
