

WE DARE TO BUILD

## LATEST NEWS

*Updates on the GT3 and the last installment is now due.*

---

We are still on schedule for delivery 2nd qtr of 2020. We hope to have the EP sample of the GT3  at the Warley show on November. But don't worry if you can't attend we will have it in the next newsletter.

The sample sound decoder is being programmed ready for testing in one of the EP samples.

Some said we couldn't do it, but hey we're doing it. We are so close now to completing our first model, that more great models are due. We have been working very hard in the background looking at different trains and wagons that we can recreate into models.

---

We are nearly at the final hurdle, the home stretch is in sight. So now it's time for that final installment. This will cover the postage too. For 'rest of the world' customers you will have

the VAT deducted from this payment. There will be several steps so hopefully you can navigate it. Firstly select the model you have ordered, then select the country you live in, then you will be able to make your payment. Also, if you don't have a PayPal account use the 'sign in as a guest' option.

For customers who have both types then you add each model to your cart and proceed from there.

Clear as mud, what could possibly go wrong?

**GT3 OO Gauge DCC Ready Final Installment**

**GT3 OO Gauge DCC Sound Final installment**

We would really appreciate it if you could complete the payment during November as December is a short month due to the festive holiday.

We will be at Warley again this year, with another announcement of a new product. We are on stand A62, see you there.
