DIY Series

Introducing our D.I.Y. series - flatpack solid wood furniture. *Timber Actually* initiated this series with the intention to make solid wood furniture as accessible as possible for every household. Various parts can be mixed and matched to form different furniture pieces that are suited to the different needs of your dream home. It is also easy to assemble with basic tools and easy-to-follow instructions.

The flatpack solid wood furniture is designed to offer you a stable platform by using 100% sustainable source of solid wood material from Singapore local tree. The fabrication process of the furniture also adopts techniques that minimizes wastage, giving rise to a very affordable rate!

Geo Table

The Geo Table can be used in a wide range of settings, including homes, offices, cafes, restaurants, or any other places where additional tables are needed. It can serve as a standalone coffee table, side table, or kids-friendly table for kids to enjoy their meal. It can also be paired with lower stool to accommodate to various preferences and styles ranging from traditional to modern minimalist.
