Nose

Instructions

By following the instructions below you will make one earring. Repeat all instructions to make the second earring.

1. Take one head pin and string on one Baroque bead, large side down. Make a simple wire loop. Set aside. Repeat this step twice more.
2. Take one eye pin and string on one bicone bead. Make a simple wire loop, make sure that the loop faces the same direction as the other side. Set aside. Repeat this step three more times.
3. Take one eye pin and string on one bicone bead. Make a simple wire loop, make sure that the loop faces the opposite direction as the other side. Set

aside.

4. Take the eye pin with the bicone on it and the opposite facing loop, then open the loop, same as you would a jump ring, and attach it to one earring finding. Close the loop.

5. Moving to the other side of this piece. Open the loop and attach the top hole of one chandelier bead to the loop. Close the loop.

6. In the same manner as above, attach the remaining pieces. Attach one eye pin to the first of the three loops and to the other side of the eye pin attach one baroque bead.

7. Attach one eye pin to the middle of the three loops and to the other side of this eye pin attach one more eye pin and not the other side of this eye pin add one baroque bead.

8. Attach one eye pin to the last of the three loops and to the other side of the eye pin attach one baroque bead.

9. All done!
